

Multi-8/LPCI

» Features

- 8 Ports Serial Card
- Supports PCI and PCI-X Bus Interface
- RS-232 or RS-422/485(Combo) Interface: 8 ports
- 256 byte FIFO, the Largest Size in the World
- Maximum Communication Speed: 921.6kbps
- Auto Toggling: Automatic control I/O of the Bus for RS-422/485
- Slew-rate Limit Control
- 15kV Surge Protection

Overview

Multi-8/LPCI is equipped with SB16C1058PCI, powerful semiconductor designed by SystemBase. The SB16C1058PCI semiconductor is a UART designed for PCI Bus which has the 256 byte FIFO, the largest in the world. There are no overrun when communicating with 921.6kbps. It has all the necessary components for the serial communication that the developers do not require additional components to design the product. There are RS-232 and RS-422/485 (Combo) models. It is ideal for POS, medical use, factory automation and building automation field.

Auto Toggling

The Multi-8/LPCI has a built-in hardware feature that performs automatic toggling to prevent devices from sending data at the same time causing a crash. This operation is crucial when multiple devices are connected to prevent electrical collisions that lead to errors and unstable communication.

Slew-Rate Limit Control

The Multi-8/LPCI is equipped with Slew Rate limit control for RS-422/485 interface and when enabled it minimizes EMI emissions which may cause data transmission errors. When Slew Rate is used maximum communication speed is 250kbps. This function is recommended in many medical applications.

Specification

Bus Interface

| | |
|---------------|--------------------------------------|
| Specification | PCI Local Bus Specification Rev. 2.3 |
|---------------|--------------------------------------|

Serial

| | |
|-----------------------|--|
| Interface | RS-232, RS-422/485 (Combo) |
| Number of ports | 8 |
| Maximum Speed | 921.6 kbps (For 5.3Mbps model, please contact our sales representative.) |
| Signal Lines | RS-232: TXD, RXD, DTR, DSR, RTS, CTS, DCD, GND, RI (5V or 12V) RS-422: TXD+, TXD-, RXD+, RXD- RS-485: TRXD+, TRXD- |
| Protection | Built-in ESD Protection: $\pm 15\text{kV}$ |
| Flow Control | RTS/CTS, XON/XOFF (by Hardware or Software) |
| Data Crash Prevention | Auto Toggling (by Software) |

Hardware

| | |
|-----------------|---------------------|
| Controller | SB16C1058PCI |
| Board Connector | DB44 (Female) |
| Panel Connector | DE-09S (DB9 Female) |

Software

| | |
|---------|--------------------------------|
| OS | Windows 7/ 2008/ 8.1/ 10/ 2012 |
| | LINUX |
| Utility | TestView™ |

Operating Environment

| | |
|-----------------------|------------------------|
| Operating Temperature | 0 ~ 50 °C |
| Storing Temperature | -20 ~ 70 °C |
| Humidity | 5 ~ 95% Non-Condensing |

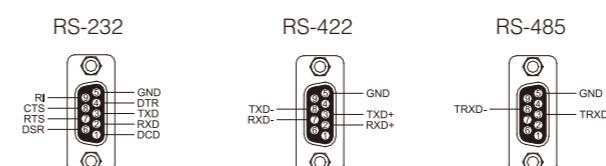

Certifications

KC, CE, FCC

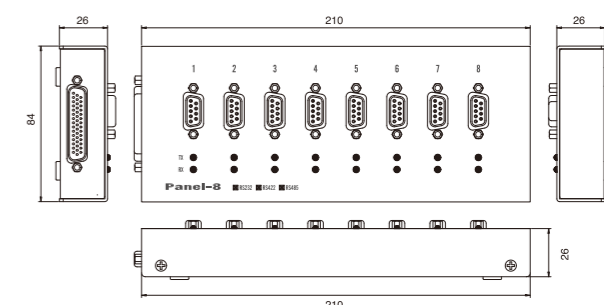

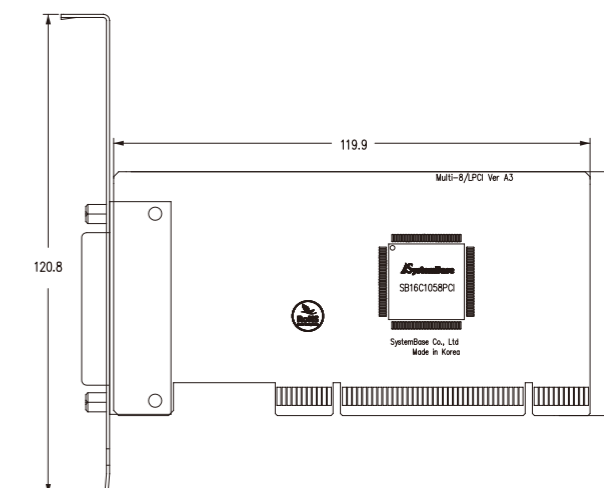

Ordering Information
